

ASUS **PDA LCD** **Inspection Standard**

LCD Panel Issue:

- Agent needs to check the detail model number of the PDA.
- LCD Inspection Spec: A pixel = R.G.B. three dots

Warrant against any one of following items (the rule fits to all models), if no external force or abuse:

. Minimum of five defective dots in total screen.

. Minimum of two pairs of adjacent defective dots.

. Minimum of three in a set of adjacent defective dots.

- If there are some ripples and lines on the LCD, please pass the case to RMA to exchange.
- If damage to the LCD is caused by improper use, charges will be made for repair.
